***Re: Hudson River PCBs Superfund Site- Consent Decree (Civil Action No. 1:05 CV-1270)  
2009 Data Summary Report – Hudson River Water and Fish***

Dear Mr. Garbarini:

The enclosed report entitled "2009 Data Summary Report – Hudson River Water and Fish" presents the water and fish data collected in 2009 as part of the Baseline Monitoring Program (BMP), Phase 1 Hudson River Remedial Action Monitoring Program (RAMP), and Hudson River Off-Season Monitoring Program (OSMP). The purpose of this report is to document the field and laboratory work performed as part of the BMP, RAMP, and OSMP in 2009, report the data, and present the results of the associated data quality assessment. The BMP QAPP and the RAM QAPP specify that the annual DSR will document the prior calendar year's work, including a summary of the work performed, a tabulation of results, field notes, processing data, chain-of-custody (COC) forms, copies of laboratory audits, data validation results, copies of laboratory reports, and an electronic version of the project database. The enclosed DSR provides that documentation.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Robert G. Gibson".

Robert G. Gibson  
EHS Leader – Hudson River
